

Apartment Showing Policy

Before viewing an apartment, you will need to provide HPM with the following:

1. A **completed guest card** which includes your full name and your phone number or email address. That way, we can contact you if anything changes with the apartment showing appointment.
2. You must **present your government-issued photo ID** at or before the showing.

These procedures are in place as a simple security measure. For instance, if a crime ever occurred during an apartment showing, we would have a verified list of the people present at that time.
